EXPERIENCE

Project Engineer

2022 - Now

Wipro, Gurgaon, India

Java Developer at Wipro – Over 1 years of experience in developing applications using Java and J2EE technologies. Responsible for the complete SDLC process, including design, development, and implementation. Utilized various technologies such as Spring, Hibernate, JSP, Servlets, Web Services, JDBC, XML and JavaScript to develop robust web applications.

- Developed web-based applications using Java/J2EE technologies.
- Collaborated with cross-functional teams to deliver high-quality software solutions.
- Implemented OOPS concepts for application design using Java.
- Developed applications using Spring Framework & Hibernate ORM.
- Designed and developed web services using RESTful API's.
- Performed unit testing of all the modules developed.
- Developed stored procedures using SQL.

2-Months Internship

2022 - 2022

Decimal Technologies, Gurgaon, India

At Decimal Technologies, I worked as a Flutter Developer where I utilized my knowledge of software development and mobile app design. During my time there, I developed and implemented user-friendly mobile applications using the Flutter framework. My main responsibilities included:

- Designing mobile apps.
- Developing automated tests for mobile apps.
- Creating UIs for mobile apps.
- Integrating APIs for better user experience.
- Deploying apps to the App Store.

Additionally, I was involved in debugging code and providing technical support throughout the product life cycle.

Java Trainee

2021 - 2021

AllSoft Solutions, Mohali, India

Java Trainee at AllSoft Solutions, India (2021-06 - 2021-07): I worked as a Java Trainee for AllSoft Solutions in India for one month. During this short period of time, I gained valuable experience and knowledge in Java and was able to apply my understanding to develop applications. My responsibilities included:

- Designing and developing applications with Java

- Testing and debugging programs
- Analyzing user needs and system functionalities
- Creating technical documentation
- Investigating new technologies and tools.
